LA CULTURA DELLA TRADIZIONE

Il legno rappresenta la materia su cui è cresciuta nel corso dei millenni la maestria dell'uomo che ha imparato a trasformare questo elemento naturale in prodotti di uso comune. Nel mondo dell'edilizia il legno è da sempre l'elemento fondamentale dello spazio abitativo e riveste sempre più un ruolo significativo nella valorizzazione dello stile che ogni persona conferisce al proprio ambiente. Ogni porta separa e unisce spazi e mondi molto diversi compiendo un semplice movimento arricchito di tecnologia: dai semplici sistemi di chiusura a battente, alle soluzioni scorrevoli interno muro e scorrevoli pieghevoli, dai nuovi movimenti rototraslanti al sistema brevettato Space. Lo stile diventa distintivo attraverso una gamma molto articolata di soluzioni di design che coniugano essenze diverse con lavorazioni uniche per qualità e risultato estetico.

CULTURE OF TRADITION

Wood is the material on which the skill of man has grown, over the millennia, learning to transform this natural element in everyday products. In the world of construction, wood has always been the key element of living space; it plays an increasingly significant role in the enhancement of the style that everyone gives to their environment. Each door divides and connects very different spaces and worlds with a simple movement enriched by technology. From simple hinged closing version to in-wall sliding and folding systems; from new swivel movements to Space patented system. The style becomes distinctive through a very wide range of design solutions combining different wood essences to qualitatively and aesthetically unique manufacturing.

LA CULTURE TRADITIONNELLE

Le bois représente le matériau sur lequel, au fil des millénaires, a grandi l'habileté de l'homme qui a appris à transformer cet élément naturel dans des produits quotidiens. Dans le monde de la construction, le bois a toujours été l'élément clé de l'espace vivant et il joue un rôle de plus en plus significative dans l'amélioration du style que chacun donne à son propre environnement.

Chaque porte sépare et unit des espaces et des mondes très différents, en faisant un simple mouvement enrichi par la technologie: à partir de systèmes simples de fermeture à battante, aux solutions coulissantes escamotables et pliantes, pour arriver aux nouveaux mouvements pivotantes et au système breveté Space. Le style devient distinctif par une gamme très diversifiée de solutions de design qui combinent différentes essences de bois à travaux uniques de qualité et d'esthétique.

CERTIFICAZIONI

CoopLegno ha ottenuto nel dicembre 2006, prima azienda del settore in Italia, la certificazione del proprio sistema di gestione in modo integrato per Qualità, Sicurezza e Ambiente. Le norme internazionali ISO 9001 per la Qualità, OHSAS 18001 per la Sicurezza, ISO 14001 per l'Ambiente, permettono di gestire responsabilmente, nell'ottica del miglioramento continuo, due aree fortemente presidiate dalle leggi (Sicurezza e Ambiente), integrandole con il sistema di qualità globale, già certificato in CoopLegno fin dal 1995. La certificazione di conformità ai requisiti delle normative è stata rilasciata da Det Norske Veritas (DNV).

QUALITÀ La certificazione consente a CoopLegno di dimostrare la propria capacità di fornire prodotti e servizi conformi ai requisiti contrattuali, garantendo ai clienti che ogni fase di lavoro si concretizza secondo standard determinati.

QUALITY The certification agrees CoopLegno to prove the own skilful to supply products and services in conformance with the contractual requirements, ensuring the customers that each working phase is concretized following determinate standards.

QUALITÉ La certification permet à CoopLegno de démontrer sa propre capacité à fournir des produits et services conformes aux exigences du contrat, en garantissant aux clients que chaque phase de travail est déterminée en fonction de certains standard.

CERTIFICATIONS

On December 2006, CoopLegno has achieved, first Italian firm in its sector, the certification of its own running system in a integrated manner for Quality, Security and Environment . The ISO 9001 International norms for Quality, OHSAS 18001 for Security, ISO 14001 for Environment, allow to manage with accountability, in the prospective of a continuous improvement, two fields strongly guarded by laws (Security and Environment), completing them with the global quality system, already achieved by CoopLegno since the 1995. The certification of conformity to the norm requirements has been issued by Det Norske Veritas (DNV).

SICUREZZA Con il sistema di gestione della Sicurezza certificato, CoopLegno ha definito una politica di prevenzione e riduzione dei rischi connessi alle attività di lavoro. La metodologia consente un miglioramento continuo, attraverso l'individuazione delle migliori tecnologie disponibili e con un'adeguata formazione dei lavoratori.

SECURITY With the certification of the Security running system, CoopLegno defines a policy of prevention to reduce the risks connected with the working phases. The process agrees a continuous improvement, through the individualization of the best available technology and with an adequate training of workers.

SÉCURITÉ Avec le système de gestion de la Sécurité certifié, CoopLegno a établi une politique pour prévenir et réduire les risques associés aux activités de travail. La méthodologie permet une amélioration continue grâce à l'identification des meilleures technologies disponibles et avec une formation appropriée des travailleurs.

CERTIFICATIONS

CoopLegno a obtenu en décembre 2006, première société leader du secteur en Italie, la certification de son système de gestion intégré pour Qualité, Sécurité et Environnement.

Les normes internationales ISO 9001 pour la Qualité, OHSAS 18001 pour la Sécurité, ISO 14001 pour l'Environnement, permettent de gérer de façon responsable, avec l'objectif d'amélioration continue, deux secteurs fortement patrouillés par les lois (Sécurité et Environnement), en les intégrant avec le système qualité globale, déjà certifié en CoopLegno depuis 1995. La certification de conformité aux exigences réglementaires a été émise par Det Norske Veritas (DNV).

AMBIENTE La certificazione del sistema di gestione Ambientale ha lo scopo di fornire la garanzia che gli adempimenti di legge riguardanti l'Ambiente siano sotto controllo e costantemente monitorati. CoopLegno ha effettuato forti investimenti per raggiungere gli standard di certificazione, con la consapevolezza che l'Ambiente è un bene comune che occorre salvaguardare.

ENVIRONMENT The certification of the Environment running system has the purpose to provide the guarantee the laws fulfilment concerning the Environment are under control and constantly followed. CoopLegno has realized strong investments to achieve the certification standards, conscious that Environment is a collective resource that has to be preserved.

ENVIRONMENT La certification du système de gestion Environnemental est conçue pour fournir l'assurance que les obligations légales concernant l'environnement sont contrôlées et surveillées en permanence. CoopLegno a investi massivement pour répondre aux normes de certification, avec la compréhension que l'environnement est un bien commun qui doit être sauvagardé.

GEO

Lo stile diventa distintivo attraverso una gamma molto articolata di soluzioni di design che coniugano essenze di legno diverse con lavorazioni uniche per qualità e risultato estetico. Geo si conferma, così, una famiglia di prodotti che dalla tradizione sa cogliere continuamente gli stimoli per sviluppare nuove linee in sintonia con l'evoluzione del gusto e della cultura dell'abitare.

The style becomes distinctive through a very wide range of design solutions combining different wood essences to qualitatively and aesthetically unique manufacturing.

Geo is thus confirmed as a family of products which is always able to grasp new stimulus from tradition so to develop new lines in tune with the evolution of taste and culture of living.

Le style devient distinctif par une gamme très diversifiée de solutions de design qui combinent différentes essences de bois à travaux uniques de qualité et d'esthétique.

Geo est donc confirmée comme famille de produits qui est toujours en mesure de saisir la relance par la tradition pour développer de nouvelles lignes en phase avec l'évolution du goût et de la culture de vie.

XYLON

Linee morbide ed essenziali, equilibrio delle forme e grande versatilità. Le porte Xylon, ispirate ad una misurata semplicità, sono funzionali e resistenti, grazie al pratico rivestimento in laminato che conferisce alle superfici una elevata resistenza antigraffio. Proposte in una ricca gamma di materiali, cromie e finiture, si adattano con discrezione a molteplici ambienti e arredi.

Soft, essential lines and perfectly proportioned shapes, in which simplicity is the key inspiring feature, make Xylon doors both practical and hard wearing, thanks to the laminated coating that makes the surface particularly scratch resistant. Available in a wide range of materials, colours and finishes, they blend discreetly in with a variety of styles and furnishings.

Portes avec un caractère exclusif qui sont à expérimenter de nouveaux moyens d'interprétation des espaces, des volumes et des géométries classiques, pour s'adapter aux maisons à la fois classiques et contemporaines, avec personnalité et puissance communicative. Les détails sont les caractéristiques d'une histoire que chacun peut définir, en observant une des portes Xylon.
